

Marc-donald Omeus

Computer scientist

As a final-year computer science student, I am a passionate and experienced full-stack developer with expertise in phone decoding since 2019. Holding a certification in computer troubleshooting and a degree in business management, I merge technical skills with a strategic approach. Currently involved in creating an e-commerce website for a clothing sales company, I am a versatile professional ready to add value to any IT and entrepreneurial project.

Expériences professionnelles

- ▶ Deputy Director of Personal Ministries Department - Seventh-day Adventist Church Cedron, Delmas 19/Port-au-Prince/Haiti

Janvier 2023 - Actuellement

In 2023, as the deputy director of the Personal Ministries Department, I led inspiring programs and contributed to spiritual growth. This experience led to my promotion as the director for 2024. My commitment, creativity, and passion for service will guide my actions in ministry development, demonstrating my enthusiasm to support the spiritual mission of the Seventh-day Adventist Church
